PROJECTS

🌐 BanglaVerse [React, Node.js, MongoDB]

May 2025 - Jun 2025

[GitHub](#)

- Developed an AI-powered Bengali language platform enabling seamless translation, intelligent chat, and content creation for Banglish and authentic Bengali.
- Implemented real-time Banglish-to-Bangla conversion, AI-driven chatbot with bilingual support, and rich text editor for document creation and PDF export.

👤 Babysitter Management System [C#, SQL Server, .NET Framework]

Jan 2024 -Jun 2024

[GitHub](#)

- Developed a comprehensive platform to manage babysitting services effectively and securely for parents and babysitters.
- Built using .NET Framework with Visual Studio 2017 and SQL Server 2014, featuring registration, profile management, job posting, booking, billing, and integrated baby shop.

🏠 Rent Management System [Java]

Nov 2022 - Dec 2022

[GitHub](#)

- Designed a Java-based application for rental services with tenant management, payment tracking, and automated report generation.
- Implemented secure user registration, payment processing, and intuitive interface for seamless operation.

📱 Abohochitro [PHP, HTML, JS, CSS]

Jun 2025 - Jul 2025

[GitHub](#)

- Abohochitro is a web-based dashboard for Bangladesh offering real-time updates on air quality, temperature, and cyclone tracking with interactive visualizations.
- The platform also offers tailored health advice and instant emergency alerts, empowering users to take proactive steps for their well-being and safety.
